Version Control: Github

Email Campaign: Zoho Mail (Newsletter)

Analytics and Seo Tools: Google Analytics, Google Search Console, Page speed Insights, Ubersuggest, Wordstream

Others: Responsive Design, SEO Content Writing, Social Media Management

PROJECTS

TUKLAS: An NFT-Based Art Arcade - *Capstone Project*

Developed a web platform that converts digital art into NFTs and enables trading in an integrated marketplace.

- Built front-end using Tailwind CSS, React.js, and JavaScript to ensure a responsive and modern UI.
- Built back-end using ExpressJs, Prisma, Solidity for smart contract, IPFS for decentralized storage of images with PostgreSQL as database.
- Implemented NFT minting logic and ownership tracking to promote plagiarism prevention.

Lancer's Guild - *Academic Project*

Created a freelance service platform to connect service providers and clients.

- Led UI design using Figma.
- Collaborated with peers to ensure consistent user experience across devices.
- Awarded Best Project in IPT102 (Integrative Programming Technologies).

EXPERIENCE

Front-End Developer Intern - *University of Batangas (Jan 2025 - May 2025)*

- Developed the front end of the IQAO (Internal Quality Assurance Office) system using Next.js, Tailwind CSS, and Shadcn/UI, improving the internal audit process.
- Designed UI components and wireframes in Figma, ensuring alignment with brand and usability guidelines.
- Worked in an agile setting, attending regular meetings with stakeholders to gather feedback and iterate on UI features.

Sr. Digital Marketing Staff - Bigmate Philippines (Aug 2025 - Present)

- Maintain and optimize WordPress websites, achieving a 100/100 Lighthouse performance score through speed optimization, plugin configuration, and ongoing technical improvements.
- Write SEO-focused blog posts, conduct keyword research, and implement on-page SEO strategies to increase search visibility and organic traffic.
- Utilize Google Analytics, Google Search Console, and PageSpeed Insights to analyze site performance, track user behavior, and resolve technical issues.
- Manage social media content by designing graphics in Canva, writing compelling captions, and scheduling posts on Facebook to increase engagement.
- Design and send newsletters using Canva and Zoho, ensuring effective communication and audience targeting.
- Handle client email inquiries with professionalism, providing timely responses and support.
